Ohio Democrats Will Soon Select a Leader.

THE CONVENTION IN SESSION.

Allen W. Thurman Selected Temporary Chairman—Campbell Confident of Renomination—Doings of the Delegates at the Cleveland Convention.

CLEVELAND, July 15.—The Democratic state convention met here at 10 o'clock this forenoon. In calling the convention to order Mr. John S. Norton, chairman of the state central committee, congratulated the convention on the encouraging outlook for the Democratic party and predicted its triumph in the coming election. He then took up the McKinley bill, and devoted a greater part of his remarks to that measure, which he characterized as a law no more worthy of honor than the levy of the bandit and the buccaneer.

"Personally, Major McKinley is an honest man," said Colonel Norton, "but his measure is a burglar without heart and without mercy who robs alike the defenseless child, the strong man and the helpless woman. It is a monument of wrong whose every stone is from the quarry of oppression." He closed by introducing Allen W. Thurman, the temporary chairman, as the worthy son of an illustrious sire.

A. W. Thurman, in taking his position as temporary chairman of the convention, facetiously quoted ex-Governor Foraker as saying that "even the wiles of the devil seemed unable to kill the Democratic party." This undoubtedly meant that it would never be destroyed by the Republican party. The speech was quite a lengthy one and was largely devoted to the tariff question and the doings of the late session of congress. He praised the action of the legislature in passing the Australian ballot law, and wanted all personal differences or feelings of disappointment dropped, and thorough organization and active work all over the state.

Campbell Confident.

Governor Campbell, in the bridal chamber of the Hollenden, is taking things calmly and with apparent contentment of mind. He threw down the gauntlet to his opponents upon entering the hotel yesterday afternoon. While the majority of the crowd cheered until they were hoarse, the Hamilton and Cuyahoga county men, who occupied a big section of the rotunda, were conspicuous by their silence. Mounting a chair in response to calls for a speech Governor Campbell pointed his index finger to the opposition corner and said with emphasis: "I will make my speech tomorrow afternoon."

Last night in conversation he said that not only would he be nominated on the first ballot, but that he could afford to give a hundred votes of his reserve strength to his opponents in order that they might be able to make a respectable showing. As to the future after the convention, he was perfectly willing to let that take care of itself.

The various district delegations met at 9 o'clock last night and chose their representatives on the various committees. An hour later the committee on resolutions went into secret session in the mayor's office. The silver plank is about the only bone of contention, although the two representatives of the opposition will fight an endorsement of Campbell's administration.

Small Sized Row.

There came near being a tragedy in the meeting of the delegates from the Seventh congressional district last night. The trouble arose from Colonel Herbert, of Erie county, declaring his intention of supporting Campbell in the convention. Mike Harrington, of Toledo, who was prominently identified with the United States secret service under Grover Cleveland's administration, took umbrage at the declaration of his colleague. One word brought on another and finally Harrington let out and knocked his opponent out of his chair. According to eyewitnesses Herbert drew his gun, and one of his friends followed suit but the other members of the delegation rushed between the combatants and prevented further hostilities.

At 12:30 this morning the committee on resolutions took a recess. The committee stands eleven to ten in favor of free coinage.

The new state central committee will be composed as follows, the gentlemen named having been selected at the meeting of the respective congressional delegations last night:

First district—Michael Mullen, of Hamilton county.

Second district—Michael Devanney, of Hamilton.

Third district—Charles E. Galliland, of Montgomery.

Fourth district—C. F. Lantis, of Preble county.

Fifth district—G. W. Hull, of Allen county.

Sixth district—L. C. Cole, of Wood county.

Seventh district—William Beatty, of Lucas county.

Eighth district—J. A. Norton, of Seneca county.

Ninth district—J. L. Tranger, of Franklin county.

Tenth district—F. A. Slacey, of Ross county.

Eleventh district—W. W. Pennell, of Brown county.

Twelfth district—John L. Vance, of Gallia county.

Thirteenth district—John G. Reeves, of Fairfield county.

Fourteenth district—J. R. Hill, of Licking county.

Fifteenth district—H. L. Melven, of Ashland county.

Sixteenth district—L. P. Oblinger, of Wayne county.

Seventeenth district—A. N. Kennon, of Belmont county.

Eighteenth district—J. P. Mehaffy, of Guernsey county.

Nineteenth district—John Manning, of Mahoning county.

Twentieth district—W. T. Gobin, of Summit county.

Twenty-first district—Charles Carroll, of Cuyahoga county.

KILLED HIS FRIEND.

Jim Johnson, of Charleston, W. Va., Confesses a Heinous Deed.

CHARLESTON, July 15.—About 6 o'clock Friday night Jim Johnson killed Henry Wise on Ten-Mile of Paint creek, this county. Wise was a butcher who formerly lived at Huntington. His son was on his way to buy cattle. His failure to return by Sunday aroused suspicion against Johnson, whom he had been seen with last. Johnson was arrested and confessed to hitting Wise on the head with a rock and hiding the body, but refuses to say where he hid it. He is in jail here and a warrant has been issued for Henry Mullens, an alleged accomplice. Johnson says Wise began the quarrel which ended in his death.

A curious complication has arisen in the Wise murder case. Johnson confessed to having struck him on the head with a rock, and left him hid, supposed to be dead. A man turned up on Paint creek, went before a magistrate and swore he was Wise. He said that he had been over in Boone county, and was not at all dead. The officers did not know the man, nor did they know Wise. The question now is whether this is not a confederate of Johnson trying to get him out of jail, or if it is really Wise, who did Johnson kill?

SALT LAKE ELECTION.

Liberals Defeat the Mormons and Their Allies with Increased Majorities.

SALT LAKE CITY, July 15.—Enthusiastic Liberals are making the city ring because of a victory in the school election here. The Mormons and allies made a desperate effort to capture the board of education, but the Liberals held their own, carrying by an increased majority the precincts carried by them heretofore, and losing those they lost before by reduced majorities. They retain six of the ten members of the board, and carry the city as a whole by 700 majority.

No Uprising Among the Indians.

ST. PAUL, July 15.—Indian Agent B. P. Schuler and Robert Beaulieu, of the White Earth Indian reservation, arrived in St. Paul yesterday. Mr. Schuler remarked upon the absurdity of reports of serious Indian trouble and says they have no knowledge of the threatened commotion telegraphed over the country. As to the tearing down of the council house the fact is that that building is used by the Indians for dancing, and that the government prohibits the Indians from holding dances, and that some dissatisfaction is felt in consequence, but the thought of violence is not entertained for a moment and never has been.

Shot His Father.

GREENSBURG, Pa., July 15.—Herbert McGinnis, the 4-year-old son of J. F. McGinnis, accidentally shot his father in the head with a Winchester rifle, Mr. McGinnis dying two hours later. The rifle was lying on the floor in a room above the kitchen, while Mr. McGinnis was seated by the kitchen stove. Herbert got out of bed, picked up the gun and discharged it. The ball passed through the floor and ceiling and lodged in Mr. McGinnis' brain. He uttered a few words and fell over unconscious, dying two hours afterwards. He leaves a wife and two children.

False Chinese Certificates.

OTTAWA, July 15.—The government has been apprised that the practice of transferring certificates by Chinese residents in British Columbia is on the increase. In this way newly arriving immigrants escape the poll tax of \$50. On a recent steamer there were forty Chinamen, all duly certified, who did not answer to the description contained in their papers. They were closely examined and only a few allowed to pass. Agents in China are making big money by dealing in these certificates. Extra vigilance will be used to prevent the imposition.

Three Americans in It.

PARIS, July 15.—Among those whom President Carnot yesterday decorated in honor of the Fall of Bastille were three Americans, Mr. Van Bergen, Dr. Nachtel and Mr. Schweitzer, a delegate from the New York Benevolent society. The first two were appointed officers of Legion of Honor, and Mr. Schweitzer a knight of Legion of Honor.

Ran Into an Open Switch.

DUQUOIN, Ill., July 15.—The north-bound New Orleans limited on the Illinois Central yesterday ran into an open switch here and badly wrecked the mail car for the southbound train. Mail Clerks Hughey and Hodge were badly injured, but are not in a dangerous condition. No one else was hurt.

Tramp Steamship Wrecked.

NEW YORK, July 15.—The tramp steamship Endymion is reported to have been met on July 10, with her crank broken, struggling to reach New York. She declined the assistance of passing ships and is expected off Fire Island tomorrow. The Endymion is from Barrow, England.

General Thomas Harrison Dead.

WACO, Tex., July 15.—General Thomas Harrison died here Monday. He was born in Alabama in 1823. He served throughout the Mexican war and the war of the rebellion and afterwards took a prominent part in the politics of the state of Texas.

Premature Explosion.

WOODVILLE, N. H., July 15.—Yesterday, by the premature explosion of a blast, two Italians were fatally injured.

NATIONAL CAPITAL.

It is Not the Place for a Political Convention.

ARGUMENTS AGAINST THE PLACE

It Would Have a Demoralizing Influence Especially if Congress Was in Session. Other Cities Compared With Washington and Why the Latter Place Should Not Be Selected.

WASHINGTON, July 15.—Having put on foot a movement to bring the national encampment of the Grand Army of the Republic to this city, the newspapers of Washington are now agitating the question of holding one or both of the national conventions at the national capital. It is not at all likely that the movement to hold a national convention in Washington will receive much encouragement, and it is not possible that it should be successful.

Washington is financially a very poor convention town. But aside from that fact, it would be utterly demoralizing to the public service to have a political convention going on here especially with congress in session. It can be counted as pretty certain that the president would throw all the weight of his influence against holding the Republican convention here if the matter was ever considered seriously. It would create a fearful scandal, for there would be no way of preventing Federal officials in the departments taking an active part in the affairs of the convention, and even the president would be charged with interfering in its deliberations and with attempting to dictate its action. The proposition would meet with the earnest opposition of the members of congress, for the convention would demoralize the deliberations of that body.

If the president has any choice in the selection of the place for holding the next Republican national convention he has not expressed it, so far as is known. There is little doubt that he will have a voice, and a decided voice, in naming the place, and it is the impression among his friends, political and personal, that he would prefer Chicago. President Cleveland wanted the last Democratic convention held in Chicago, as the place where he received his first nomination, but Mr. Cleveland was not on the best terms with some of the members of his national committee and they did not follow his wishes. Mr. Harrison, it is believed, will express a preference for Chicago as the seat of the next Republican convention, and if he does it is likely to go there.

New York is too crowded and too far east. The last named is one of the objections which can be raised to Washington, but it is by no means the only one. In Chicago, St. Louis and other cities there is a commercial class which is benefited by the gathering of large crowds of people, and from this commercial class the money is obtained to pay for the public demonstrations which must necessarily attend the welcoming of so large a body of strangers and their public entertainment. In Washington this class is so small that it is with great difficulty that any considerable fund is raised for any public purpose, and the national capital cannot enter into competition with any other large city in the country in this.

MAN'S HEAD TORN OFF.

An Instantaneous Death in a Cincinnati Foundry.

CINCINNATI, July 15.—A most peculiar accident, resulting in the instantaneous death of William Leive, occurred at L. Schreiber & Sons' foundry, Eggleston avenue, at 10 o'clock yesterday morning. Leive was at work on a machine used for punching holes in iron. He was placing a belt on the revolving shaft of the machine, but did not adjust it properly, and in some unexplainable way he fell against the machine and a portion of his head was severed from his body before he or any one else realized that danger was at hand.

The accident occurred on the second floor of the establishment. The machine which did the fatal work was a small one and was used for light work.

Leive, the victim of the terrible accident, was twenty-four years old. He was single and lived at 10 Mulberry street. It seems the placing of a belt on a punching machine is an operation that requires skill. The proprietors say that no one but the millwright should attempt to do it.

Cut His Child's Arm Off.

CANTON, O., July 15.—Near Palmyra, while John Lewis, a farmer, was mowing timothy with a scythe, his little 3-year-old son, who was hidden in the grass was struck by the blade and an arm taken off. The little fellow sustained other injuries which may prove fatal. Lewis had forbidden the child to follow him into the field, but the youngster had gone out and hidden.

Freight Train Wrecked.

SPOKANE, Wash., July 15.—A freight on the Northern Pacific while going over a trestle near this city last night, crashed through to the ravine below. Michael Flaherty, fireman, was killed outright. Roadmaster Speer was probably fatally hurt. The cars were badly wrecked; two of them were loaded with horses and cattle, most of which were killed.

Heir to a Million.

SPRINGFIELD, O., July 15.—Mrs. Dr. Holloway, of this city, has received authoritative news that she is the only heir to \$1,000,000 left her by an uncle, Sir James Baxendale, of Manchester, England, whom she never saw. He was noted for his large wooden mills, and died a year ago. The executor has been searching for Mrs. Holloway ever since.

FALL OF THE BASTILLE.

France's National Holiday Observed In New York City.

NEW YORK, July 15.—The anniversary of the fall of the bastille, 14th of July, France's national day, began at the French consulate yesterday morning. The Viscount D'Absac, consul general of France, received delegates from all the French societies in New York.

The French Benevolent society commemorated the day at Lion park. The morning was devoted to athletic games, contests for ladies in tennis, bicycle riding and other events. In the afternoon there was a concert by the Philharmonic society, under the direction of Henri Morin. Then followed a public reception in honor of Viscount D'Absac, and speeches were made by Joseph Thoren, Professor Wisner, the Rev. Dr. Mendes and Coroner Levy. There were also shooting matches for medals and other prizes and all sorts of French games for children, and dancing.

There was a double program for the day on account of a slight division of the counties, the second event taking place at Harlem River park, where a salvo of artillery ushered in the festivities at 1 o'clock. This was followed by a concert by the Fourteenth Regiment band. Games, songs and other pastimes were indulged in, concluding with a ball. Mayor Grant and a number of prominent persons attended both picnics.

Dangerous Goods to Handle.

NEW YORK, July 15.—The tramp steamship R. C. Booth, 2,000 tons burthen, lying at the foot of Richmond street, Brooklyn, with a cargo consigned to Spence & Company, New York, was seriously damaged yesterday morning while reloading a box of dynamite cartridges that exploded, killing two men. Two others were wounded. One of the men was blown to pieces by the explosion and fragments of his body were found strewn at some distance from the scene of the accident. The pieces were gathered and placed in a box. A large hole was blown in the starboard side of the steamship. At last accounts she was sinking. The cause of the explosion is a mystery.

Big Tax Dodger.

AKRON, O., July 15.—In a suit just filed against Thomas W. Cornell, president of the First National bank and the richest man in town, County Treasurer Seymour asks judgment for \$168,672.41 back taxes with 5 per cent. added for collection. It is alleged that Cornell's omissions from the tax list for the past five years have ranged from \$500,000 to \$1,500,000. Foraker and Avery, of Cincinnati, are attorneys for the county treasurer. Cornell's reputed wealth is four or five millions. His tax return this year was a watch and two buggies.

Our Minister to Hayti.

CHICAGO, July 15.—William Hoffman, a participant in the councils of the congressional party, and who arrived in this country on the Itata, says that Minister Egan will be unceremoniously ejected from Chili as soon as the government of Balmaceda is overthrown. He declares that Egan is playing into the hands of Balmaceda to antagonize the English, who are sympathizing with the revolutionists. He also charges Minister Egan with causing the arrest of the Itata, by notifying the Chilean minister in Washington of her errand.

Planing-Mill Burned.

TIPTON, Ind., July 15.—About 9 o'clock yesterday morning the large planing-mill owned by J. H. Tyner, in the northern part of this city, was discovered to be on fire, and in less than thirty minutes was in ashes. It was a two-story building and the upper part was occupied by Mr. Libean, washing machine manufacturer, who lost everything. The total loss will reach \$2,500, with no insurance. The fire originated in the engine room.

Another Account of the Chilean Battle.

SAN DIEGO, Cal., July 15.—The commander of the Mexican man-of-war Democrita, now lying in this harbor, received a dispatch from his government yesterday, which says that a naval engagement took place off the coast of Chili two days ago between the insurgent cruiser Magellanes and several government vessels. The insurgent craft gained a decisive victory, sinking two of the opposing vessels and putting the others to flight.

Fought With an Ax.

PORTSMOUTH, O., July 15.—News has been received here of a probably fatal row which occurred at Union Mills Monday night. William Turner and his nephew engaged in a quarrel over some property, when the latter seized an ax and made for the old man. Owing to the advanced years of Mr. Turner it is feared he cannot recover. His assailant is under arrest.

Back Broken in a Runaway.

LIMA, O., July 15.—John Connell, one of the city street force, was standing in the middle of the street unloading some stone from a wagon when a runaway team dashed upon him. The pole struck him in the small of the back, breaking his back.

Cloudburst in Missouri.

CLINTON, July 15.—A cloudburst near this city last night caused the small creeks to overflow, doing great damage to harvesting and growing grain. The gulf railroad experienced the loss of 1,500 feet of track, delaying all trains.

Fired by an Engine.

WAPAKONETA, O., July 15.—A threshing machine on the farm of John Brown, near here, set fire to the stacker and consumed the threshing machine, 150 bushels of wheat and 1,500 feet of lumber. Loss, \$2,200.

Fertilizing Works Burned.

HARRISBURG, Pa., July 15.—The fertilizing works of M. M. Grover, at Perdie, Perry county, were burned last night. Loss, \$15,000; insurance, \$8,000.

The Glasgow Herald hasn't a very exalted opinion of the People's party nominee for Governor. It says "surely the Alliance must be short of gubernatorial timber when it goes out of its way to pick up Mr. S. B. Erwin as its candidate."

SPECULATIONS are being indulged in as to what the majority in favor of the new Constitution will be. Some estimates place it at 50,000, others at 75,000, and still others place the figures as high as 100,000. Outside of Newport, Covington, Lexington and Louisville the opposition to it is not very strong.

THIRTY of the Democratic editors of Kansas met a few days ago to discuss the political situation, especially the question of the nominee for President in 1892. A poll resulted in twenty-six declaring for Cleveland, and only two for Governor Hill. Mr. Hill will not be in the fight next year if he depends upon the Kansas editors.

THE Kentucky election is held on the first Monday in August, which comes this year on the 3d. That will give plenty of time for Senator Carlisle to make a few tariff reform speeches in Ohio.—Cincinnati Enquirer.

The People of Kentucky would like very much to hear Senator Carlisle occasionally. It has been a long time since he has taken an active part in a State campaign.

MAJOR WOOD, the Republican nominee for Governor, claims the farmers are rallying to his support, and Taubeneck of the Alliance-People's party claims they will poll 40,000 votes at the approaching election. Wood and Taubeneck may talk all they please, but you'll find the good old Democratic farmers voting the Democratic ticket in August.

It was recently stated that there are 313 abandoned farms in New Jersey, and now Ohio's State Board of Equalization finds that in 56 out of 88 counties in the Buckeye State the value of land has fallen in 10 years from 3 to 15 per cent. In McKinley's home county, the decrease is 10 per cent. And the farmers have been enjoying the blessings (?) of a high tariff all this time, too.

A GENTLEMAN from Hickman County, interviewed by the Hopkinsville New Era, says S. B. Erwin has no strength in his own county in his race as the Third party candidate for Governor. He doubts if Mr. Erwin would receive one hundred votes in Hickman County. He said: "I have known Erwin for about four years, a good portion of which I have lived within three miles of his residence, and, to be candid, I know he could not be elected to the position of magistrate in his own district, much less to the highest office within the gift of the people of the State."

It is rather singular that the People's party should take up such a man and ask the voters of Kentucky to support him for the highest State office in their gift. The leaders of that party were certainly aware of his disgraceful doings in reference to the tobacco growers' warehouse last winter. For his conduct in that matter he was deposed from the Presidency of the State Alliance. If the People's party want the people to support their ticket, they ought to put up men deserving the people's confidence and support.

For the Farmer.

It is said that France wants 165,000,000 bushels of our wheat. Owing to the heavy foreign demand, the price is certainly in no danger of getting any lower than at present.

Some of the farmers about Murphysville and Sardis report that their wheat is not yielding as much as they expected. That which was sown early is a much better crop than the late sowing.

The wheat crop in the purchase will be enormous. One twenty-acre field yielded 780 bushels, another of forty-five acres averaged thirty bushels. These are said to be fair samples of the yield.—Louisville Times.

Monday morning dawned bright and beautiful, corn and tobacco growing rapidly, the mower and the thrasher making music through our beautiful country, all nature smiles and the farmer's heart leaps with joy at the prospect of well-filled barns and pocket-books. We have the finest country in the world, without a doubt.

The ladies have gone to work in earnest determined to make the supper on Saturday evening a grand success, and if energy, good taste, polite attention by pleasant young ladies, all the delicacies and refreshments that the ingenuity of woman can devise will make one, they will certainly succeed. HELENA.

I have just returned from a visit to Glenn Springs, and must say that whilst I expected a pleasant sojourn at this popular watering place, and a well appointed hotel, (for I knew that the proprietor, Mr. J. N. Walcott, was no half-way man) I did not expect the elegant and modern building, with its handsomely furnished rooms, frescoed ceilings, superb ball and dining rooms, and a menu equal to the Burnet or Gibson. We reached the hotel in time for the five o'clock dinner Friday, July 3rd. After dining sumptuously and resting awhile, we made our toilettes for the opening ball. Upon entering the large and beautiful ball room, we were greeted by strains of delicious music, by Melville's well known Cincinnati band. Here until 2 o'clock the lovers of Terpsichore danced the hours away. At 10 o'clock a superb banquet was served, at which a menu that would have delighted an epicure was discussed with the most elegant of guests who helped to make our stay so delightful, were Mr. and Mrs. Brashers, Mr. and Mrs. Spillman, Mr. and Mrs. Dustin, Mrs. Hill, Mr. Ladley, of Cincinnati and suburbs; Mr. and Mrs. Walter Watson, and Miss Lucy Watson, and Stockton Wood, of Maysville; Mr. and Mrs. Abner Hord, and Pierce Calvert of this county; Mr. and Mrs. Marshall Fleming, Misses Fleming, Lee, Armstrong, Howe and Fant, of Fleming; Messrs. Will and J. D. Dunley and Ashton, of Flemingsburg; and Anderson of Ironton, Ohio. The two Messrs. Walker, agreeable sons of the genial host, with his charming wife made our visit, as one of the girls expressed it, like a beautiful dream. I doubt if a more delightful spot and the heated time could be found, to those seeking either pleasure, or health. E. S.

KACKLEY & McDOUGLE,

MAYSVILLE, KY.

He Finally Reached School.

An amusing story is told of a pretty little Stockton schoolboy who makes it the rule to get to school rather late in the morning. The kind teacher, who had too much regard for the little fellow to punish him harshly, resorted to sharp lectures for his tardiness, but the whole some advice did no good, so she wrote a note to the little scholar's mother, telling of his shortcomings, and asking the parent if he could not be made to come to school early, as he was always tardy.

The next day the mother had her son up bright and early and started him to school early enough for him to make the round trip before school time. When the luncheon hour came the little chap arrived home happy and very hungry. But the first question put to him by his fond mother was: "My son, did you get to school in time this morning?" "Oh, yes, ma," said he, "I got to school early today—I got there in time for recess!"—Cor. San Francisco Bulletin.

Pitying an Official.

When M. Thiers, once president of the French republic, revisited his native town he found one or two old men who had been the companions of his boyhood some sixty years ago, and whom he had not seen since.

He asked one of them what he had been doing, to which the old man replied, with evident satisfaction, that he had been driving a flourishing trade in the boot and shoe line.

"And what have you been about?" he in his turn asked of M. Thiers.

The latter explained that he was the ex-president of the republic.

"What," ejaculated his companion.

"Are you that Thiers? My poor friend, how I pity you!"—New York World.

An Aesthetic Meat Man.

There is one practical soul just around the corner in the Rue des Petits Champs who points with pride to the crowds who gather round his establishment, drawn thither by the symphony in filets of beef, chops en papillotes and legs of lamb dreamily interspersed with palms and drooping pots of mimosa.—Paris Letter.

Mr. Clark, to the Public.

I wish to say to my friends and the public, that I regard Chamberlain's Colic, Cholera and Diarrhoea Remedy as the best preparation in use for Colic and Diarrhoea. It is the finest selling medicine I ever handled, because it always gives satisfaction.

A SHIRT FACTORY.

Another Enterprise to be Started in Maysville Soon.

Another industrial enterprise will soon be in operation in this city.

Mr. W. R. Macdonald has decided to start a shirt factory, and is already engaged in getting out his patterns.

He expects to have his establishment fitted up and in operation by the first of September. He does not intend to start on a very large scale. Employment will be given to about ten persons at first, and the capacity of the factory will be enlarged as the business may justify.

Mr. Macdonald has not decided on a location yet, but will have little trouble to secure suitable rooms. The machines will be operated by an electric motor or water power.

It is the intention at the start to manufacture only such shirts and overalls as are used by the laboring classes, but a finer class of goods may be made later on.

Mr. Macdonald is a straightforward, industrious young man, and his friends trust he will meet with unbounded success in the new enterprise. He has an acquaintance in Indiana who has made a snug fortune making shirts, and he thinks what has been done elsewhere can be done in Maysville.

TROUBLE AMONG THE INDIANS.

Cause of the Disturbance Among the Chippewa Tribe—Their Views Differ from the Law Enacted—Bulletin Issued from the Census Office—Other Dispatches from Washington.

WASHINGTON, July 15.—The commissioner of Indian affairs has received no information in regard to the reported disturbance among the Chippewa Indians at Leech Lake, on the White Earth reservation. Some time since the commissioner received a letter from Henry M. Rice, chairman of the Chippewa Indian commission, in which he attributed the trouble among the Indians to the non-payment of the \$100,000 appropriated for reservoir damages. He said that the \$90,000 paid to the Indians last fall was of little service to them as gambling, dancing and idleness occupied their time, except when away from headquarters, when whisky drinking was freely indulged in.

The present trouble is of old standing—the Indians want their money paid them in cash per capita, while the law requires its equivalent to be supplied them in agricultural implements. Several memorials from the Indians have been sent to Secretary Noble, asking that they be paid in money per capita, but he has persistently refused to comply with their wishes. The commissioner does not believe the trouble will be serious or of long duration.

Bulletin from the Census Office.

WASHINGTON, July 15.—The bulletin recently issued by the census office, giving the receipts and expenditures of one hundred cities, has been more or less criticized in the newspapers. The accuracy of the figures given has been questioned, and the array of statistics has been pronounced worthless. It seems, however, that the criticisms thus far have been of a general character, for Superintendent Porter states that, although the bulletin has been issued several weeks no officer of any city has pointed out any error in it, either in the amounts or the classification. He says that if any errors should hereafter be pointed out the office will gladly correct it before incorporating the figures in the final census volumes.

The statistics relating to Washington were not given in the bulletin, owing to the character of the government of the city, which is so unlike any other municipal government in this country that classification would have been impossible. Mr. J. K. Upton, the special agent in charge of the work, states that he would be glad to make a separate bulletin of Washington, and this will be done if he can get the time.

Uruguay and Costa Rica.

WASHINGTON, July 15.—The bureau of American republics has private advice from Uruguay that that little republic intends to establish a legation in the United States, and that Dr. Jose Estrazulas will be appointed minister plenipotentiary.

The Costa Rica government continues to promote its commerce by steamship subsidies. It has renewed its contract with the Foxhall line between New Orleans and Port Limon for four years; with the Atlas Steamship company for five years; with the Kosmos (German) line for one year, and with the Royal Steamship company for five years. All these companies receive a rebate of 5 per cent. duties on the merchandise imported by them, and pay only nominal port duties.

Instructions on the Behring Sea Case.

WASHINGTON, July 15.—The state department has mailed final instructions to Professors Mendenhall and Merriam, who are to go to Behring sea in connection with the seal question. The instructions request them to collect all possible data on the subject. The Marion will probably sail for Behring sea on the 17th inst.

Off for a Six Weeks' Cruise.

NEW YORK, July 15.—The Inman steamship City of Berlin, which is to leave for Liverpool to-day, will take away 210 Knights Templar from all parts of the United States, who are to do Europe for six weeks. A majority of the party will come from Albany. The party will visit Queenstown, Cork, Blarney Castle, Kilmarey Castle, Dublin, Kenilworth, Warwick, Shetford, Leamington, London, Paris, Brussels and Antwerp before returning home.

On to Norway.

LONDON, July 15.—Immediately on returning from his inspection of Fifth of North bridge the Kaiser gave the imperial command, and the Hohenzollern proceeded on her voyage to Norway. The warships in the harbor of Leith fired a royal salute as they passed out to sea.

Ill-Fated Result.

NEW YORK, July 15.—The steamer Athos reports the foundering of the Helen Mead in the Gulf of Mexico. The Mead was bound from New Orleans to Nicaragua, and is the third ship of the Morgan line sent on the same voyage with the same ill-fated result.

Indictment Found.

LONDON, July 15.—A Carnarvon dispatch says that the grand jury has found a true bill against Duncan, the American who is charged with having recently attempted the murder of his wife in the mountains near Bettwis-y-Coed, North Wales.

Prominent Prohibitionist Dead.

FIFTY THOUSAND

The Amount Kentucky Will Lose by the Shortage of Tate.

FRANKFORT, July 15.—The jury in the Tate security case has returned a verdict for the defense. The counsel for the commonwealth has made a motion for a new trial. The suit was against the bondsmen of the defaulting state treasurer, James W. Tate, who in 1888 skipped out leaving a deficit of about \$150,000. This has been very materially reduced by the assets that were left behind, and the authorities of the state attempted to make the commonwealth whole by forcing the sureties to pay the balance.

The latter resisted the effort on the ground that the state officers had not exercised that diligence in supervising the acts of the treasurer that the law required of them. The case went to the court of appeals once on a legal point involved, but this is the first trial that has been had on the merits of the controversy. It is a victory for the sureties and means that the state will be out about \$50,000 on account of Tate's rascality. The defaulting treasurer has not been heard from for about two years, so far as the public has had any knowledge. His family still resides here.

Locked the Judge Up.

JEFFERSONVILLE, Ind., July 15.—The sensational divorce suit of Mrs. W. N. McCoy against Dr. McCoy, after an exciting trial, closed yesterday with a new sensation. When Judge Ferguson proceeded to render his verdict the attorneys made answer that the litigants had reconsidered their differences and were again living together. Another funny episode in the trial happened at West Baden Springs, where the judge sojourned over Sunday. The ladies there had become interested, and were so eager to learn the decision of the court ahead of time that they locked the judge in his room and refused to let him out until he told them what he would do. He proved obdurate and was finally released without gratifying their curiosity.

Wholesale Grocer Disappears.

INDIANAPOLIS, July 15.—Charles O'Connor, son of the wholesale grocer, is missing from the city, and there is no question but he has abandoned his family. He conducted a couple of grocery stores and was supposed to be very prosperous in his business. He left the city on Wednesday and has not since been seen. Yesterday morning his father began an invoice of the stock of goods to find in what shape he had left his business. W. J. Ready, O'Connor's brother-in-law, says that nothing is known of his whereabouts. He also says that O'Connor has been gambling very heavily of late.

Shortening Time.

PITTSBURG, July 15.—The general passenger and ticket agent of the Pennsylvania company makes the following announcement respecting the fast train service: On and after Sunday, July 19, quicker time will be made between St. Louis, Indianapolis, Cincinnati and New York by the trains of the Pennsylvania lines. Train No. 30 will arrive in New York at 2:30 p. m., one and one-half hours earlier than at present, and train No. 21 will leave New York at 3 p. m., one hour later than at present, making a quickened run westbound.

Killed in a Drunken Quarrel.

ALBANY, July 15.—John William Campbell, 28 years of age, a one-legged cripple and a cigarmaker by trade, from Chicago, is confined in a cell in the Central Police station charged with killing Charles Van Gilder, aged 38 years, who is also a cigarmaker, and whose home was at West Suffield, Conn. The crime was the outcome of a drunken quarrel in front of a downtown saloon, the cripple felling his antagonist with a terrific blow from his crutch. Van Gilder died a few hours later.

Farmer Stricken Down by Lightning.

SOUTH BEND, Ind., July 15.—Oliver Stuckey, aged 60 years, a prominent St. Joseph county farmer, living near Netze Dame, was struck by lightning yesterday afternoon while plowing and instantly killed. His death was not discovered until last night, when the horse, with which he was plowing, returned to the house without the driver.

Seventeen Families Burned Out.

ESCANABA, Mich., July 15.—Forest fires yesterday afternoon burned the hamlet of Whitney, eighteen miles west of here, on the Felch branch of the Northwestern road. Everything was burned except the store and charcoal kilns. Seventeen families were burned out.

The State's Rebuttal.

COLUMBUS, O., July 15.—The state in rebuttal introduced a number of witnesses in the Elliott trial yesterday to impeach the testimony of John J. Adams, who swore that Osborn threatened to kill Elliott, and that he met Elliott a few hours before the tragedy and informed him of it. Four witnesses swore that they were playing cards with Adams at the time he swore he was warning Elliott.

PERT, Ind., July 15.—Lena Thair, the 12-year-old girl who will be remembered as the prosecuting witness in the case of the state vs. Arthur Gould, her cousin, for rape, and who is now serving one year in the county jail, has given birth to a nine-pound girl baby.
